Dear Librarian/Library Acquisition Committee,

I would like to recommend the following publication(s) for our library.

Please select title(s):

Genes and Development

Genome Research

RNA

CSH Protocols
(online only)

CSH Perspectives
(online only)

Learning and Memory

I recommend the above publication(s) for the following reasons: (please check all that apply)

REFERENCE: I will refer to this publication frequently for new research articles and information related to my work.

STUDENT REFERRAL: I will be referring my students to this publication regularly to assist their studies.

PUBLISHING FORUM: My research requires a publishing forum in this field. I have submitted or I am likely to submit a paper to this publication.

BENEFIT FOR LIBRARY: My evaluation of the content and direction of this publication is very high. Acquisition of this title will assist the library in fulfilling department, faculty and student needs.

MY OWN AFFILIATION: I am a contributor to or a member of the editorial/advisory board of this publication. I strongly support Cold Spring Harbor Laboratory Press publications as essential scientific resources and require their publications in my work. I will regularly recommend this publication to my colleagues and students.

I give permission for Cold Spring Harbor Laboratory Press to contact my institution with my recommendation.
