

Acknowledgments

We owe a great debt of thanks to Cold Spring Harbor Laboratory Press and Library and Archives staff for making sure that this book met its deadline. In particular to Kathy Bubbeo who had the unenviable task of keeping track of multiple drafts and for cajoling us to do what was needed, to Denise Weiss for the book's delightful design, to Inez Sialiano for ensuring all the necessary pieces were received, to Carol Brown for securing all necessary permissions, to Stephanie Satalino for managing this complex project amazingly well, acquiring all artwork and collecting biosketches, to Tom Adams for digitizing the artwork, and to John Inglis, Executive Director, for his guidance and oversight.
